

About Us

Boulangerie Humanité is a large, unpretentious family, bringing together fine companies with enviable expertise in the field of baking such as: **Maison Isabelle**, **Boulangerie Dumas**, **Aliments 2000** and **Francois Hubert** which offer a range of every day bakery and pastry products in all super markets and for every catering companies.

The know-how of our craftsmen is based on sustainable development and healthy and balanced growth. We are focused on respect for the environment and people, and that allows Boulangerie Humanité to succeed by progressing and becoming the food leader in America.

We make your life easier !

This is the mission of Boulangerie Humanité, to bring together and guide all families to the pleasures of the table. Who eats well, lives fully!

Boulangerie Humanité's portfolio is rich with specialized bakery and pastry businesses across Quebec. Those who know them can no longer do without them.

A big family

Dominique Bohec
President and CEO

Today, we live in a world that is increasingly polluted. We have to deal with increasingly flagrant global warming, and we have difficulty feeding the entire population, which is expected to reach 9 billion inhabitants in 2050.

The solution to this? Grant greater importance to sustainable development.

Boulangerie Humanité is committed to implementing actions relating to sustainable development that allow the company to shine and invite others.

Sustainable development therefore requires us to think about the consequences of all our actions on a daily basis. And each employee of Boulangerie Humanité will be able to act: by stopping waste, or by buying products made with respect for people and Earth. We can gain a lot from it, as well as all the generations who will inherit the planet after us!

Corporate Responsibility Sustainable Development Plan

SOCIAL

GOVERNANCE

Corporate Responsibility

Boulangerie Humanité was coached in 2021 to establish its overall approach to **sustainable development** so we can identify the most promising actions worth implementing in the **next 3 to 5 years**.

Boulangerie Humanité's Ambitions:

Environmental Component

Social Component

- 01** Improve the occupational health and safety of factory and office workers
- 02** Ensure good integration of employees and promote their commitment to the company
- 03** Meet the requirements of our customers by improving the ingredients used in our products and remaining a leader in compliance and food safety.

Reduce losses and waste associated with the use of three essential resources for the company:

Our Inputs

(ingredients, packaging, paper, etc.)

Water

Energy

(electricity, fuel, etc.)

Economic Component

Make ethical and responsible purchases. Make the company more efficient in a responsible way.

Have a fair purchasing plan and be a business partner with a fair price

Boulangerie Humanité's Ambitions

Governance Component

Ensure the monitoring and governance of Boulangerie Humanité's SD ambitions

Respect for the environment through our human capital and passion for profitability
